REMOTE & GIG WORKERS

EUREKA SPRINGS, ARKANSAS
Market Guide EurekaSpringsLiveWorkPlay.us

The Covid-19 pandemic has changed how work will be done.

82%

of companies intend to permit remote work at least some of the time.

47%

intend to allow employees to work remotely full time.

36%

say they're willing to hire workers who are 100% remote and live anywhere in the U.S.
(up from 12% prior to the COVID-19 pandemic)

A 2021 survey by FORBES indicates that

70% of the workforce will be remote workers by 2025.

Eureka Springs is ideal relocation home for remote and freelance workers

A study by Intuit predicted that by 2020, 40 - 50 percent of American workers would be independent contractors. There are a number of forces behind the rise in short-term jobs.

For one thing, in this digital age, the workforce is increasingly mobile and work can increasingly be done from anywhere, so that job and location are decoupled.

That means that freelancers can select among temporary jobs and projects around the world, while employers can select the best individuals for specific projects from a larger pool than that available in any given area.

THE TREND TOWARD A FREELANCE ECONOMY HAS BEGUN.

THE GIG ECONOMY: % FREELANCERS

The GIG Economy: Freelance Demographics

Other influences include financial pressures on businesses leading to further staff reductions and the entrance of the Millennial generation into the workforce. The current reality is that people tend to change jobs several times throughout their working lives; the gig economy can be seen as an evolution of that trend. In a gig economy, businesses save resources in terms of benefits, office space and training. They also have the ability to contract with experts for specific projects who might be too high-priced to maintain on staff.

INCENTIVES

EUREKA SPRINGS IS ENTREPRENEUR HEAVEN

The creative economy base and spirit of Eureka Springs is the perfect launching pad for new concepts, ideas, products and innovative services. Our tourism base is an ideal setting for product testing - especially in the culinary, outdoor adventure and entertainment industries.

TRUE DETECTIVE SEASON 3, MUD & ANTIQUITIES - were all partially shot in Eureka Springs.

Eureka Springs Film & Entertainment Production Incentives

Eureka Springs is the only municipality in Arkansas to offer an incentive for film, entertainment and digital production independent from - or combined with - the state incentives. Incentives include tax rebate and deep discounts from preferred vendors. Eureka Springs has an extraordinary variety of production locations. We are a founding member city of the Northwest Arkansas Film & Entertainment Commission. FilmNWA.org

Historic preservation tax credits and other incentives are available for new business and entrepreneurial projects. City officials are ready to work with you to develop an incentive program for your business. Contact us for more information.

Arkansas has an array of incentives designed to assist a wide selection of qualifying businesses in various stages of growth. More information on state incentives can be found on the Arkansas Economic Development Commission website. <https://www.arkansasedc.com/why-arkansas/business-climate/incentives>
